ccuhacks v1 2026

kolkata's biggest teen-led hackathon
for teenagers, by teenagers.

SPONSORSHIP PROSPECTUS

Dear future sponsor...

We are a group of teenagers from Kolkata. We go to school, we argue about games, we pull all-nighters, and somewhere in between all of that, we decided to build something we had never seen done here before.

ccuhacks started as a simple question: why does Kolkata not have a space where teenagers can come together, make games, and be taken seriously for it? We couldn't find a good answer. So, we stopped looking for one and started building instead.

Our maiden edition brings together young designers, coders, artists, storytellers and thinkers to build original video games from scratch over 24 hours: given a theme, a deadline, and nothing else.

We hope you will join us.

- Ritam, Ketan, Divyanka & Akshat

At a glance

- Location: Kolkata, India
- Participants: 100–150 high school students
- Duration: 24-hour (12h Day 1 + 12h Day 2)
- Format: In-Person Game Jam
- Team Size: 2–4 members

What your funds will be used for

- Food, drinks, and snacks for participants
- Stickers, t-shirts, and other merch for participants to keep
- Prizes for exceptional projects
- Cleaning, security, and other fees
- Other costs associated with hosting the event

Monetary Sponsorship Tiers

All amounts are in INR only.

In-Kind Sponsorship

We also welcome in-kind contributions. If your organization can donate goods or services instead of (or in addition to) monetary sponsorship, we would love to work with you. All in-kind sponsors receive equivalent recognition based on the estimated value of their contribution.

Some Examples:

1. Venue for the 24H event (+ time to setup/teardown)
2. Food and beverages for participants, mentors, and volunteers
3. Prizes: hardware, gadgets, subscriptions, or gift cards
4. Printing on T-Shirts

Why sponsor us

- Kolkata's first teen game jam, founding sponsors are remembered
- Direct visibility with 100–150 young builders, their parents, and teachers
- Early brand affinity with teenagers forming opinions about companies *right now*
- Mentor, judge, and workshop slots put your team in front of the next generation of developers
- 100% volunteer-run: every rupee goes toward the event, not overheads
